

Introduction to the Course

Hello everyone, I am Natasha.

Welcome to the exciting journey of creating our own digital games.

I am sure most of you have spent hours playing games on devices such as mobiles, tablets, laptops, etc.

Have you ever spared a thought on how these games are made??? What if you are given the chance to create your own games?

I am sure you would jump with joy at this exciting thought. Well, you will be happy to know I' am here to take you through a step by step process of creating digital games.

I will be with you at every step of this journey and will make sure that learning together is fun.

Before we do that, let me tell you about who's made it possible for us to learn together!

In Collaboration with NITI Aayog, Atal Innovation Mission (AIM) and Dell Technologies and implemented by Learning Links Foundation

Now, let's take the first step in this journey by getting familiar with basic information about the theme & platform we are going to use.

Bye Bye!

See you soon!
