

Introduction to the Course

Hello everyone, I am Tanya.

Welcome to the exciting journey of creating your own digital games.

I am sure most of you have spent hours playing games on your mobiles, laptops, etc.

Do you know how they are made??? Do you want to make your own games?

I am sure you would. I' am here to take you through a step by step process of creating games.

We are going to have lots of fun learning together.

Before we do that, let me tell you about who's made it possible for us to learn together!

In Collaboration with NITI Aayog, Atal Innovation Mission (AIM) and Dell Technologies and implemented by Learning Links Foundation

Now, let's continue the exciting journey by getting familiar with basic information about the platform we are going to use.

Bye Bye!

See you soon!
